

COYOTES LIVE HERE

Sat. May 30, 2026 | 8:30am - 2pm

North of the PSU Farmers Market (SW Park / SW Montgomery)

Join us for Coyote-palooza: a day of discovery and learning dedicated to one of nature's most adaptable creatures!

Coyotes can survive and even thrive in many different kinds of environments – including in cities and our backyards. Coyote-palooza is a family- and pet-friendly event that will feature booths where you can learn about coyote identification and biology, participate in hands-on activities for adults and kids, and discover ways to keep pets and people safe. You'll also have the opportunity to learn about the cultural significance of coyotes, the role they play in our ecosystem, and how to coyote-proof your space. Stop by for some fun and walk away with new knowledge and tools for coexisting with coyotes!
