COYOTES LIVE HERE

It takes the whole community to keep everyone safe—
people, pets, and coyotes:

Do not feed coyotes.

Remove potential food sources and **never feed coyotes.**

Protect pets.

Keep pets indoors, on short leashes, and supervised.

Scare off bold coyotes.

Make loud noise until the coyote *leaves the area.*

Share this message.

This works best when the whole neighborhood follows these guidelines.

Whether you love coyotes, hate coyotes, or don't really care, tame coyotes are not okay.

Coyotes that are comfortable around people get into trouble and could hurt someone or end up dead.
